

# DONIC®

## What exactly is the DONIC DOTEK-SYSTEM?

The DONIC Dotec System is the wood technology without awkward edges. Since the human hand does not have hard edges, DONIC wanted to develop a smooth blade without sharp edges. It was, therefore, important to ensure a completely smooth transition between blade and handle. The DONIC Dotec system is the technology that provides a blade with a perfectly smooth handle – a joy to grip.

The handle: The DONIC Dotec model has a totally different handle to previous bats. The handle is made out of one piece, surrounded by natural cork. There are different versions for right and left handers. The Dotec grain is a wood grain developed by DONIC for the specific production of table tennis blades. This wood grain has been produced with particular emphasis on giving a light touch.

### JÖRGEN PERSSON

5-times World Champion,  
9-times European Champion,  
Top 12 Winner, World Cup Winner
